

Are **our** youths **Future Ready** in this dynamic & complex world ?

OUR STORY

Founded in 2019, **Skill Lab** is a **Nepal and Singapore** registered social venture.

We offer **one-stop, ready-to-deploy AI-powered Digital Career Guidance Software Platform** to enable education sector to **achieve and improve future readiness** and **support school-to-work transition gap**.

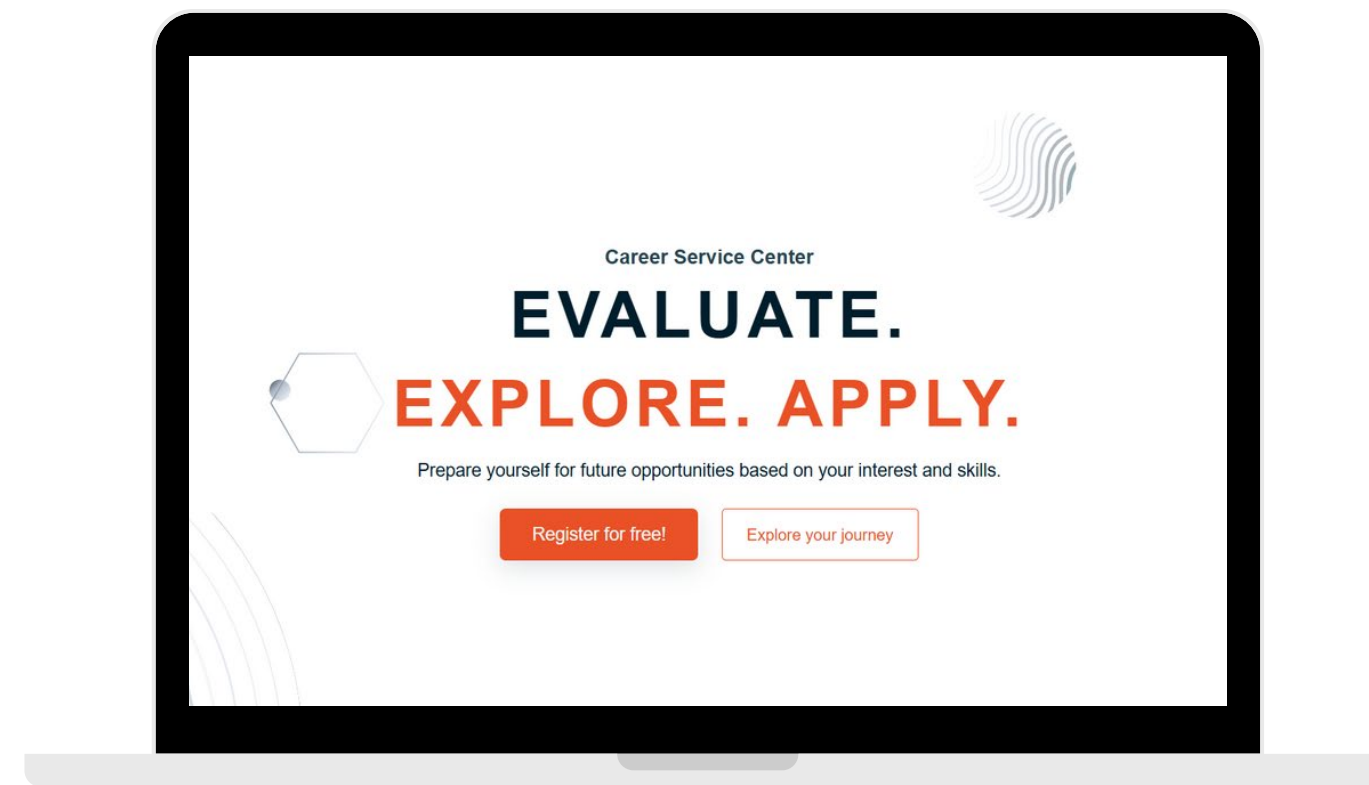

We collaborate with like-minded academic institutions, corporations and government through integrating the education to employment value chain - democratizing education and equal opportunity.

We run Skill Lab with an international team. We work successfully across Nepal, Philippines, Malaysia, Indonesia in cooperation with over 1000 organizations.

Our Mission

Equipping Education Sector to accelerate future -readiness & holistic development of their students through one-stop digital career guidance and school -to -work transition platform

3. Introduction to AI -powered Career Service Platform

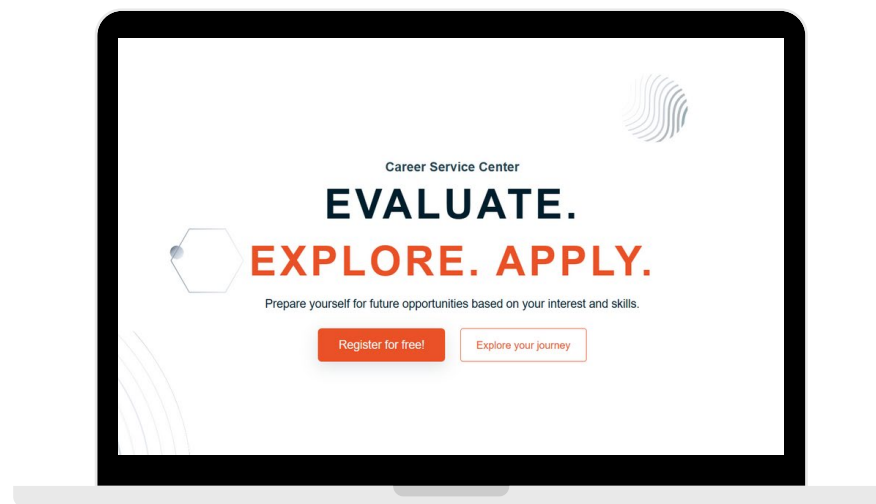

Skill Lab Digital Career Service Centre is a unique, inhouse developed proprietary platform that provides an **end-to-end career services and employer relations software platform solution** to education institutions, enabling the preparation of future-readiness and providing internship and employment linkage.

The AI enabled platform is **aimed towards preparation for knowledge-economy**. It integrates individual student development plans with assessments, psychometric tests, skills and course pathways with training content that includes general management, banking, insurance, IT, coding and programming, sustainability, accountancy etc.

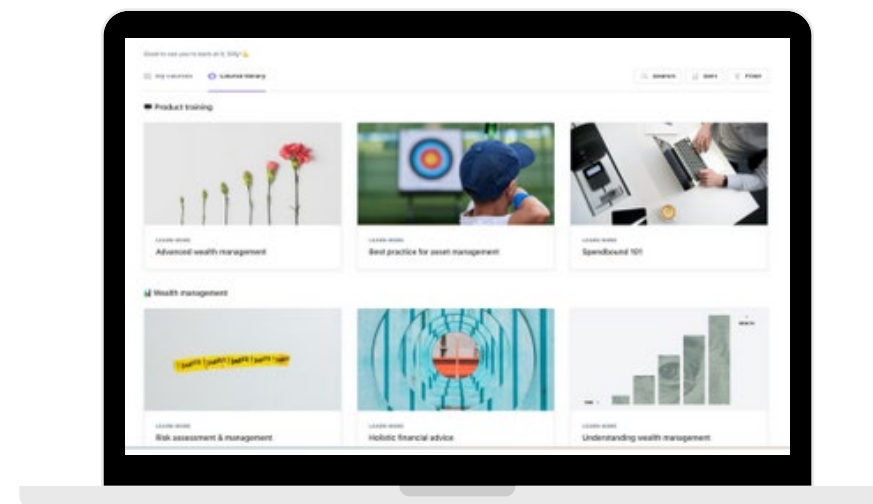

The platform empowers students and faculties to take control of their future readiness through self-paced learning and self-evaluation to **remain future ready with the resources built in partnership with corporations**. It provides students with all the tools towards internship placement and employment linkage and matchmaking.

The structure of the **platform is set-up in a modular way that allows optionality** and additionality to institutions in its offering to their students.

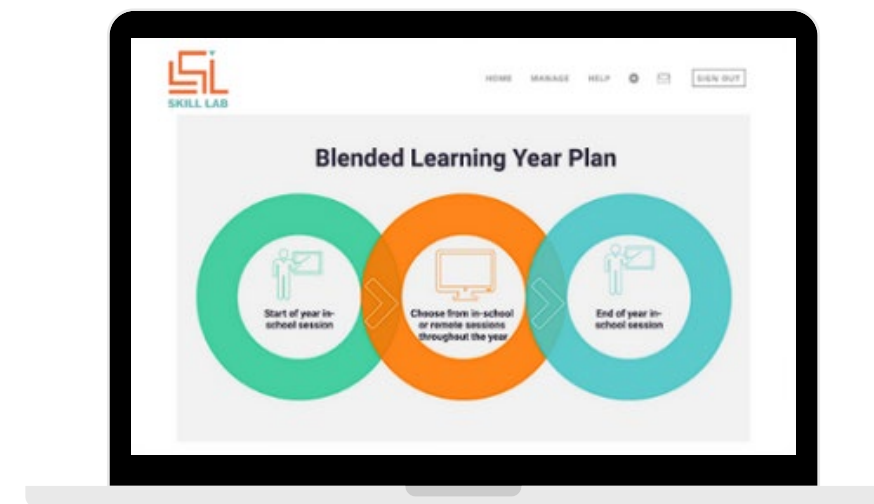

WHAT EDUCATION SECTOR GETS

AI- Powered Career Service
Software Platform

Professional Development
Courses + Skill Tests

Reporting & Dashboards

Employment Match Making and
Expert HR (Human in the loop)

At Skill Lab, we believe one needs both a **centralized platform** for the **holistic development** of students for **future -readiness** and a platform that **ENABLES** with Reporting for compliance..

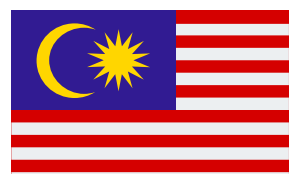

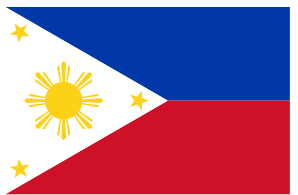

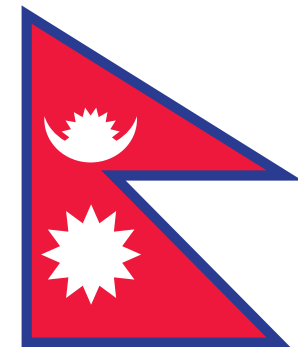

WHAT STUDENTS GETS ON THE PLATFORM

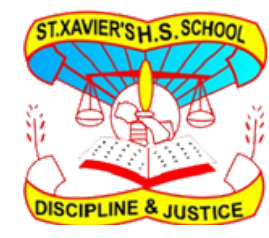

At Skill Lab , we believe you need both a centralized platform for the holistic development of your students for future -readiness .
